

Play Park report for March 2024

With the help of Tamsin the Play Park order for the play equipment that was agreed some months ago is nearer to being ordered. Due to the wet conditions the Pre School has suggested that the stepping logs are not purchased and more touchy, feely games on posts are purchased. I suggest we ask Dale at the hall to install them. It has also been mentioned that the steps to the climbing frames are very slippery and dangerous, so I suggest we ask Dale to get some anti slip strips and fasten to the steps and maybe pressure wash the play equipment to reduce the green and slippery wood.
